PROFESSIONAL SUMMARY

*Passionate and creative web developer with experience in building client-centered web applications and websites. I specialize in frontend and backend development using **JavaScript**, **React**, **Node.js**, **Express**, **Next.js**, **TypeScript**, and **MongoDB**. Additionally, I have knowledge in **PHP**, **MySQL**, and a constant focus on **problem-solving**. Currently, I am developing and maintaining e-commerce applications in the jewelry industry, applying continuous **self-learning** to strengthen my skills and seeking to join a dynamic team where I can continue learning and contribute to the success of innovative tech projects. I have strong skills in **teamwork**, **effective communication**, **adaptability**, and **creativity**, allowing me to deliver optimal and collaborative solutions.*

EDUCATION

Bachelor's Degree in Law
February 2017 to December 2022.
Instituto Tecnológico y de Estudios Superiores de Occidente

International Relations Degree.
February to July 2020.
Universidad de Deusto Bilbao.

PROFESSIONAL EXPERIENCE

Web Developer | KRONO (Gem E-commerce) ***March 2025 – Present***

- *Designed and implemented from scratch an appointment scheduling module and real-time inventory management system using React, Node.js, and MongoDB, optimizing customer retention and shopping experience.*
- *Led the redesign of 70% of the website using React and styling libraries (Bootstrap/Tailwind), increasing user traffic and significantly improving sales conversion rates.*
- *Migrated critical platform components (such as the shopping cart and checkout) to TypeScript, drastically reducing production error rates and improving code maintainability.*
- *Implemented Next.js (SSG) in static sections (FAQ, buying guides) and configured dynamic metadata for gems, reducing load times and boosting SEO positioning when sharing links on social media.*

Internship | GIINTAPE INNOVAHUE: Customizable Chatbot ***February – April 2025***

- *Implemented authentication, user registration, and password recovery modules using JS, PHP, and MySQL.*
- *Collaborated under Agile Scrum methodology using Jira for task management, backlog refinement, and sprint tracking.*

Web Project Api full | Interactive Shared Content Platform ***October – December 2024***

- *Deployed a remote server on Google Cloud Platform, configuring subdomains and security rules.*
- *Developed user authentication and authorization (JWT) on both backend and frontend, ensuring route protection and data integrity.*
- *Built the interface using React and endpoints with Node.js to edit user info, upload, like, and delete photos.*

SKILLS

- *Javascript*
- *Typescript*
- *NextJs*
- *React*
- *NodeJs(Express)*
- *Php*
- *MongoDB*
- *Git*
- *MySQL*
- *Problem Solving*
- *Communication Skills*
- *Self-learning*
- *Creativity*
- *Adaptability*
- *Teamwork.*
